

General description

Low pass filter to suppress LTE signal

Available in a metallic housing

Two ref for two different cut frequencies

The filter must let pass the power supply(24V,max 120mA)

Technical specifications

Low pass filter	(this low pass filter blocks frequency above 790MHz)			
Freq.range	0-774MHz	775-790MHz	800-822MHz	822-806MHz
Insertion Losses	-2dB max	-3.5dB max	-40dB min	-60dB min
Return Loss	-10 dB	-10 dB
