

General description

Power supply for mast amplifiers

The power adopt the switch power

The 110V-240V wide voltage input, offer the

steady 12V or 24V voltage to antenna

The antenna signal can be assign two outputs

The signal isolates high and loss lower

Technical specifications

TYPE	PS15-1/PS16-1(1X1)	PS15-2/PS16-2(1X2)
Frequency range	5-862MHz	5-862MHz
Insertion loss	<1dB	<4.5dB
Output voltage	12V or 24V/200mA	12V or 24V/200mA
Return loss	>15dB	>15dB
Power consumption	230V/50Hz/7W	
Operating temperature range	5°C~+50°C
